

FUNCTIONALITY

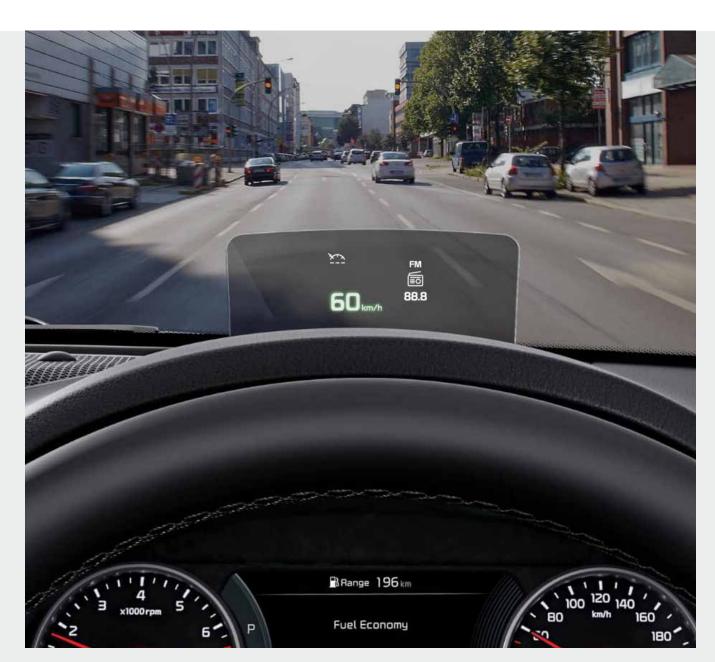

FACE YOUR
NEXT ADVENTURE WITH
RELAXED REFINEMENT

The spacious and welcoming interior combines a simple, intelligent driver interface with firm yet comfortable seating and tasteful appointments for everyone inside. A well-balanced suspension delivers a smooth ride. The decor is sophisticated, but it can also be livened up with a variety of bold color treatments.

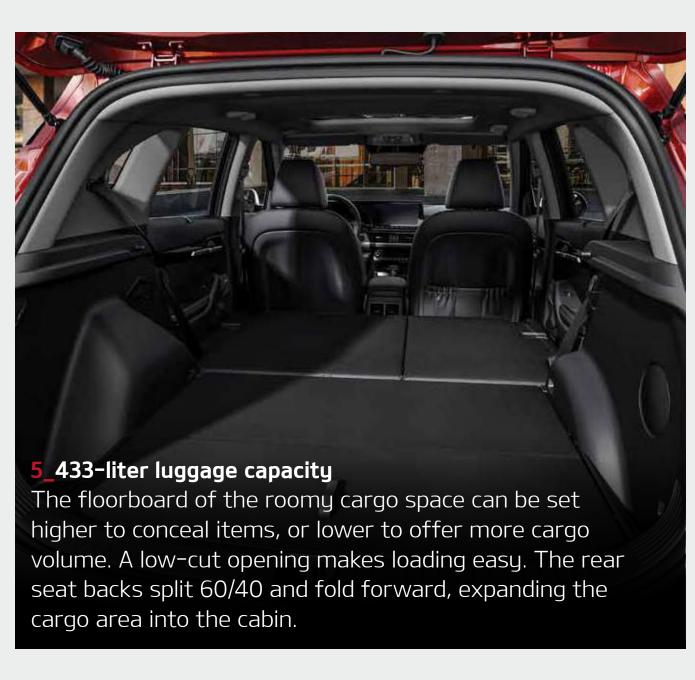

THE WORLD LOOKS BETTER FROM THE INSIDE

To minimize driver eye movement, displays are positioned at only slight angles from one another, and from the road ahead. But it's not just about the driver. This interior is designed to entertain everyone inside in true comfort.

1_Head-up display (HUD)**

The head-up display projects an image equivalent to an 8" screen onto the windshield, letting you monitor speed without looking away from the road.

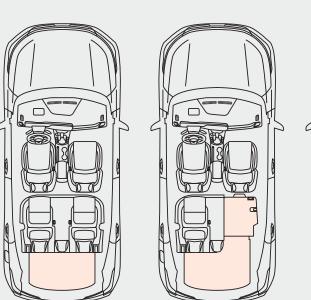

3_Smartphone wireless charger**

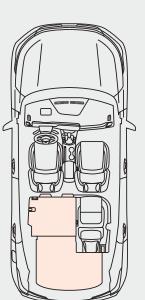

Charge a compatible mobile phone wirelessly on the pad in front of the gear selector.

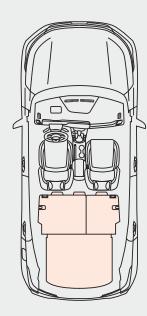

4_7-inch TFT LCD supervision cluster**

The supervision cluster helps you stay focused and informed, with data like remaining distance to empty and fuel consumption, and outside temperature.

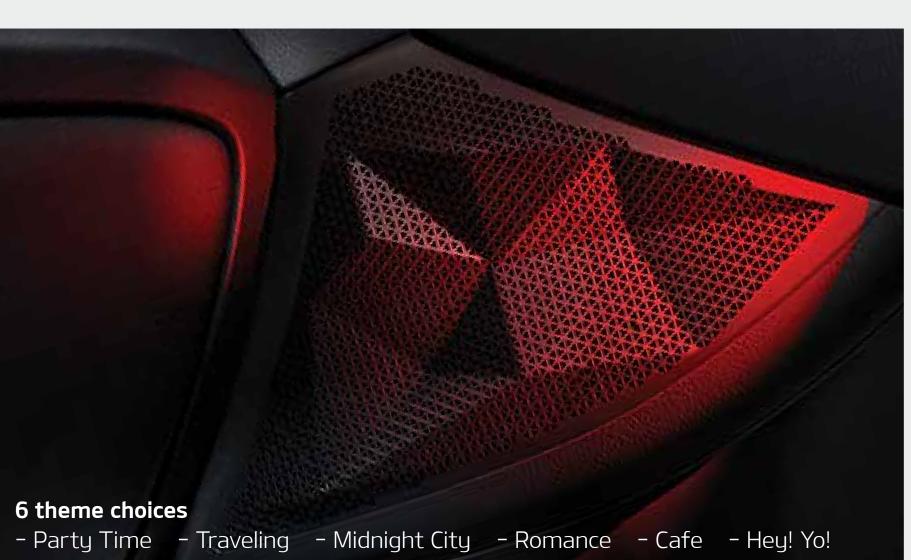

6_60:40 split-folding rear seats

The rear seatbacks split 60:40 and fold flat to accommodate a variety of passenger and cargo combinations. When the seatbacks are folded flat, large, bulky items can be transported without obstructing the view out the rear window.

7_Sound mood lighting system

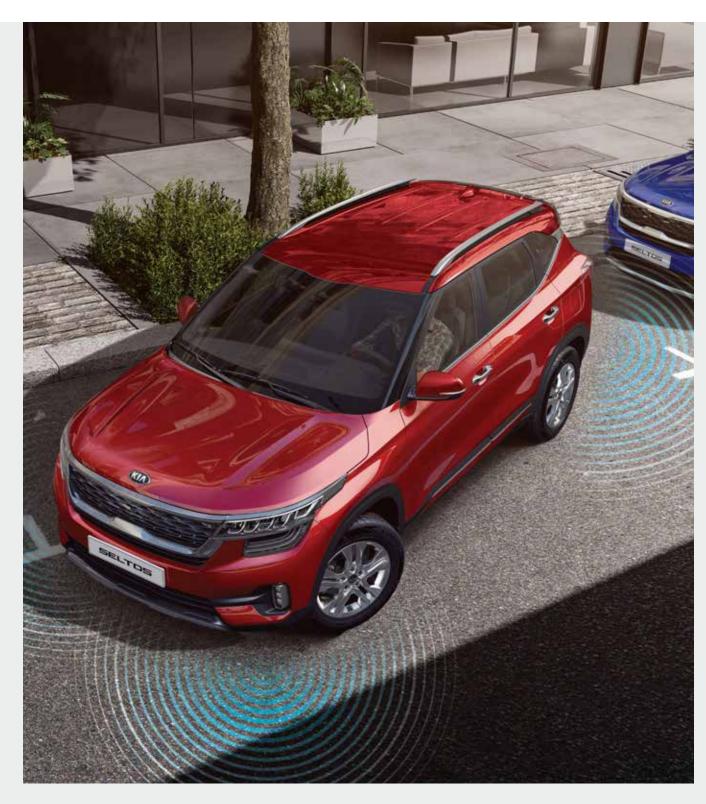

Door and dashboard surfaces glow with soothing colors that change at regular intervals, or pulsate in sync with your music.

STYLISH, SAFE, **AND SOPHISTICATED TECHNOLOGY**

Sometimes the smartest solution is the simplest one. The Seltos offers a range of technologies to help make driving safer, and with peace of mind. They come into play when you're maneuvering into a tight parking space, or backing out into the street. The technology in the Seltos is dedicated to keeping you focused and well informed, while it can even step in to help keep you out of danger.

1_Parking Distance Warning (PDW)**

To help you park safely and confidently, PDW employs ultrasonic sensors mounted on the bumpers and uses audible alerts, and visual warnings on the supervison cluster, to warn you of any vehicles or obstacles ahead of you or behind you that may be getting too close.

4_Drive Traction Selector

Drive Traction adjusts engine torque and braking to help you start off with confidence on a low-traction surface. Use button to select multiple modes

2_Stronger through added AHSS

From head to toe, the Seltos makes extensive use of advanced high strength steel (AHSS) throughout its wellreinforced chassis design. The result is exemplary control, dynamic performance, and enhanced occupant protection.

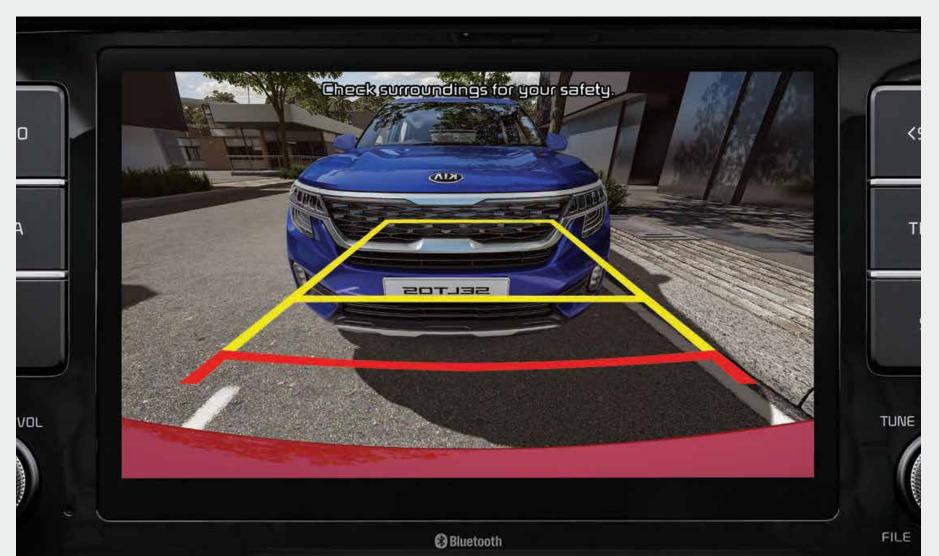

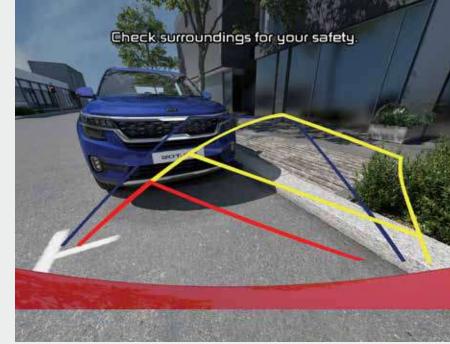

5_Cruise control

Cruise control lets you choose a preferred speed to give your foot a rest on the open road. Lightly tapping the brakes, or pressing the cancel button, will restore Seltos to manual acceleration mode.

6_Rear View Monitor (RVM)

Rear View Monitor with Parking Guidance gives you a live view of what's behind you. Lines superimposed on the image help you know how much space you have.
